

July 31, 2020

To whom it may concern:

In regards to the current incident in Canada involving a recall for red onions, we would like to assure you that based on the information provided by the CFIA we can verify that we **do not pack onions in the label that is being recalled and therefore our onions are not part of this recall.**

We grow, harvest, pack and ship all of our onions and we have a traceback program that provides all necessary information from field grown to customer receiving product. Our product is traced using a lot number, each lot is tested for pathogens including salmonella and e-coli. If you require further information to your specific orders, we will be happy to provide this information to you.

Sincerely,

A handwritten signature in cursive script that reads 'Lisa Dalena'.
